Winter 2011 Newsletter

***Our Mission:** To provide training and networking opportunities to the Rogue Valley in a spirit of camaraderie and cooperation; to help create a community of learners who grow together, making us all better therapists, enhancing the public will toward therapy, and enhancing the lives of our clients and our world.*

The Board: Maria Connolly, Tracy Gonzalez, Sharon Bolles, Taffy Clarke-Pelton, Victor Chang

President's Corner

As Winter and the end of 2011 approaches, we find this to be a time of introspection and review. We on the Board are looking back at 2011 with a mixture of sorrow, awe and appreciation. January 2011 began in an atmosphere of excitement for the year ahead, with a full schedule of promising events. By February, things started to shift internally and we became aware of some needed changes. This set in motion a very hard and deep transition by late spring. Long term board members Blandine Leavitt and Fern Snogren decided to move on in order to spend more time with family and pursue new life ventures. Also, Mary Martin, who had joined MHREN the year prior, decided to step down at the same time. I want to take the opportunity once again to thank Blandine, Fern and Mary for the years of service and dedication to our cause.

Soon after Sharon Bolles, Taffy Clarke-Pelton and Victor Chang joined the board eager to dedicate part of their time to support the board mission. I personally applaud the efforts of our newcomers of jumping in and learning the ropes in such a timely fashion.

So, here we are at the end of 2011 experiencing this year's deep transformation, pleased with the final outcome and very excited to begin the New Year with new energy and a fresh vision! We all extend our gratitude and appreciation to our members for supporting us throughout this year and we look forward to seeing you all in 2012.

Please note that we now have a Pay Pal option on our website to facilitate your workshop registrations and membership payments.

Membership Renewal

Please note that the membership renewal for the year 2012 will be due by December 31st. Especially, if you have submitted a submission form for the 2012-2013 Referral Booklet, you need to renew your membership by the end of this month in order to be included.

Again, we sincerely appreciate your continued support of our efforts. We think you will enjoy the lineup of presenters for 2012! And we hope that the cooler weather brings with it fun, fires in the fireplace and good times with friends and family. The Board wishes a joyous and peaceful holiday season to all!

MHREN Workshops

Escaping the Porn Trap: Identifying and Treating Problems Caused by Pornography

This workshop will examine why Internet pornography is so damaging and so difficult to quit. It will identify consequences of porn use – including mood disturbances, family and work disruption, sexual compulsions/addictions, and the impact on sex and relationships. We will discover interventions that facilitate healing, strengthen motivation, facilitate quitting, prevent relapse, and promote sexual healing.

Wendy Maltz, LCSW, DST, is an internationally recognized psychotherapist and expert on healthy sexuality and sexual recovery. Her books include *The Porn Trap: The Essential Guide to Overcoming Problems Caused by Pornography* and *The Sexual Healing Journey: A Guide for Survivors of Sexual Abuse*.

Psychiatric Medications, the way forward: Historical and current perspectives with a conversation about solutions.

Many controversies are arising in our culture regarding the appropriate use, possible overuse, misuse and significant potential harmful effects of psychiatric medications in our culture. At the same time there are alternative/complimentary treatments for especially depression and anxiety that are being under-utilized. Using Robert Whittaker's book, ***Anatomy of an Epidemic***, for the basis of the conversation, this seminar will be a collaboration between the author, local psychiatrists, other mental health and primary care providers. In the morning Robert Whitaker will present his research and ideas followed in the afternoon by a panel discussion of health care providers from the community moderated by psychiatrist Dr. Ted Sundin.

Robert Whitaker is an award winning journalist and author of four books. Much of his writing has focused on psychiatry, the pharmaceutical industry, and medical histories. Two notable books are, *Mad in America: Bad Science, Bad Medicine and the Enduring Mistreatment of the Mentally Ill* and *Anatomy of an Epidemic: Magic Bullets, Psychiatric Drugs, and the Astonishing Rise of Mental Illness in America*.

The Many Benefits of Applying Hypnosis and Directives in Strategic Psychotherapies: How Hypnosis Enhances Treatment

This workshop provides insights into the dynamics of integrating patterns and principles of hypnosis with the core skills of effective psychotherapy. Specifically, we will focus on identifying and developing some of the key skills necessary to design and deliver meaningful psychotherapeutic interventions hypnotically. This is also a training in learning to think and intervene strategically in helping people resolve their difficulties.

Michael D. Yapko, Ph.D., is an internationally recognized expert in clinical hypnosis and outcome focused psychotherapy. He has authored 13 books including *Trancework: An Introduction to the Practice of Clinical Hypnosis* and his latest, *Mindfulness and Hypnosis: the Power of Suggestion to Transform Experience*.

Relational Life Therapy™

This therapeutic model deals with the most stuck and intractable cases by dealing squarely with issues of character. We teach individuals in couples how to be relational, changing each individual's character as we change the relationship between them. Couples and individuals can learn and master the art of "relational mindfulness" - a practice of bringing your best self into play in your most heated moments. RLT™ is a radical approach to couple's therapy and produces profound, dramatic change quickly.

Terry Real is the world recognized Family Therapist and Author of *The New Rules of Marriage*, the best-selling *I Don't Want to Talk About It*, and *How Can I Get Through to You?* He is the Relationship Expert for *Good Morning America*, and has appeared in numerous venues like the *Today Show*, *20/20*, *Oprah* and *The New York Times*.

Becoming a Brain-Savvy Therapist: Exploring the Neurobiology of Attachment

With an overview of some basic brain science we will explore attachment histories and some ways to practice strengthening the emotional balance for both the client and therapist. Our goal is to not only learn about the left hemisphere, but to gain a visceral sense of the principles in our own bodies and brains.

Bonnie Badenoch, PhD, LMFT is a therapist, supervisor, teacher, and author of *Being a Brain-Wise Therapist: A Practical Guide to Interpersonal Neurobiology*, and *The Brain-Savvy Therapist's Workbook*. Bonnie has spent the last seven years integrating the discoveries of neuroscience into the art of therapy. Her work as a therapist focuses on helping trauma survivors reshape their neural landscape to support a life of meaning and resilience.
